

Heartlight Healing: at 'Avice Hill' 395 Memorial Ave

These monthly meditation services focus on Earth Healing promoting peace and contributing towards the healing of the Earth and humanity. Through invocations, decrees and meditation we radiate light and healing from heart and soul outwards into countries and communities in need on Earth. We work with the divine principles of Theosophy offering these meditations as a very open and encompassing space for all faiths and spiritual understandings.

"Heartlight Healing" is offered by Heart Flow Associates, who are part of the network of light nurtured by Heart Flow Worldwide, founded by Ananda Tara Shan www.Heartflow.org

"The heart is the source of love and forgiveness, the great mediator between our personality and our spiritual self. The heart has the power and capacity to heal and to bring out the best in us and our fellow beings, and to transform ourselves and the world." Ananda Tara Shan
